Projects:

1. Netflix Clone:
Developed a web application replicating the original Netflix layout and design, showcasing various movies and TV shows.
- **Technology Stack:** HTML, CSS, JavaScript

2. Quotopia - Random Quote Generator:
Created a web application that fetches and displays random quotes, allowing users to generate new quotes. Implemented an API to manage quotes.
- **Technology Stack:** HTML, CSS, JavaScript

3. QR Code Generator:
Built a web tool that generates QR codes for user-provided text or URLs, with options to download the generated QR code.
- **Technology Stack:** HTML, CSS, JavaScript

4. Password Generator:
Designed a web application to generate strong, random passwords based on user-defined criteria such as length and character types, ensuring enhanced security for users.
- **Technology Stack:** HTML, CSS, JavaScript

5. CodCraft - Online Web Development Course Provider Web Landing Page:
Developed a landing page for an online platform offering web development courses. Features include course listings, enrollment options, and user testimonials.
- **Technology Stack:** HTML, CSS, JavaScript
